► PUSHING PAST POSSIBLE

PROVEN TECHNOLOGY AT UNPARALLELED SCALE

FEATURES

- > Rapid production and delivery
- > Proven autonomy system based on DoD programs
- > Standard equipment includes EO/IR camera, maritime radar, and LOS/BLOS communications
- > Low Cost
- > Diversified supply chain
- > Global infrastructure support footprint
- > Vessel variants ranging from 20'-42' and engine kit variants ranging from 110hp to 2400hp
- > UMAA compatible

TSUNAMI® UNCREWED VESSELS

TSUNAMI USV provides advanced battlefield connectivity and mission agility to maritime mission sets while keeping warfighters out of harm's way. Designed to provide off shore counter narcotics, search-and-rescue and ISR operations, TSUNAMI has successfully integrated with both the US Navy and allied nation naval forces, demonstrating seamless partnership in complex battle spaces.

TSUNAMI FLIGHTSHIP UNCREWED VESSELS

CHARACTERISTIC	TSUNAMI 21	TSUNAMI 25
Variant Length [ft]	21' 4"	25
Beam [ft]	8' 6"	9
Power	1x300HP	1x400HP
Maximun Weight Capacity [lbs]	2800lbs	3642lbs
Top Speed [kt]	50+	40+

Information on additional craft sizes available upon request

TSUNAMI® UNCREWED ENGINE KITS

The TSUNAMI Uncrewed Kit provides engine(s) and advanced autonomy softwares that can be integrated on board a wide variety of vessels. Featuring a variety of options, the TSUNAMI kit can transform any craft from crewed to uncrewed in a matter of hours for enhanced agility across all maritime missions. With multiple engine sizes, fuel types, and locations, the TSUNAMI kits provide unrivaled mission agility across the globe.

CHARACTERISTIC	VERADO®	MERCUISER®	MERCURY DIESEL
Power	250hp-600hp (single) up to 240hp (quad)	200hp-425hp (single) up to 850hp (dual)	115hp-550hp (single) up to 1100hp (dual)
Engine Sizes	4.6L V8, 5.7 V10, 7.6 V12	4.5L V6, 6.2 V8, 8.2 V8	2.0 L4, 2.8L L4, 3.0L V6, 4.2L L6, 6.7L L6
Fuel Type	Gasoline	Gasoline	Diesel
Location	Outboard	Inboard	Inboard
