With decades of experience keeping assets operational and personnel expertly trained, we provide total life-cycle support for the COMMANDO family of vehicles and other product lines. Our mission is to design and deliver vehicles for a long life in austere battlefield and environmental conditions.

TRAINING

Targeted training curriculum and courses are developed based on individual customer needs to get you driving and to keep your vehicle on the road. We offer hands-on maintenance and operator training, computer-based courses and realistic training aids.

FIELD SERVICE SUPPORT

We offer a complete line of field services including repairs, modifications, upgrades, and Service Life Extension Programs (SLEPs). Our Field Service Representatives (FSRs) are actively deployed worldwide and readily available to support your most crucial missions.

LOGISTICS

Spare parts and logistics products are readily available for the Commando FOV. Using highly reliable parts and components in the basic design will keep valuable assets in service and available for a long useful life, maximizing the value of investment.

A COMMANDO FOR EVERY MISSION

ARMORED PERSONNEL CARRIER (APC)

BORDER GUARD

INFANTRY FIGHTING VEHICLE (IFV)

URBAN AND CROSS COUNTRY PATROL

INTELLIGENCE, SURVEILLANCE, RECONNAISSANCE (ISR)

INDIRECT FIRE/ ARTILLERY SPOTTING

MORTAR/INDIRECT FIRE

COMMAND AND CONTROL

ANTI-ARMOR

ELECTRONIC WARFARE (EW)

COMMANDO ELITE

The COMMANDO Elite 4x4 armored vehicle features the ultimate combat package of survivability, mobility, lethality, sustainability and technology. The modern design protects troops in a comfortable interior during engagements from small arms to roadside IEDs while providing the hooks and capabilities for customer mission equipment. These vehicles come equipped with our latest drive train enhancements making them fast and highly maneuverable in a wide range of environments. With a digital back bone, the COMMANDO Elite has the hooks for future upgrades and other Mission Equipment Packages (MEPs).

VEHICLE SPECIFICATIONS

COMMANDO SELECT

Exceptional crew protection is built into all COMMANDO Select vehicles. Greater survivability, however, doesn't mean sacrificing vehicle mobility – these vehicles deliver greater mobility than similar armored vehicles on the market. COMMANDO Select vehicles are customizable giving operators the ability to go almost anywhere and perform nearly any mission. Whether serving as a combat-proven infantry fighting vehicle (IFV), performing reconnaissance or as a command and control vehicle the COMMANDO SELECT is ready for action. With a wide range of configurations, it is also a proven ambulance, armored personnel carrier (APC) and a support utility vehicle.

COMMANDO VANGUARD

Leveraging our years of experience in armored vehicle design and manufacturing, the COMMANDO Vanguard is the newest addition to our COMMANDO Family of Vehicles. The COMMANDO Vanguard offers a low-cost, advanced solution for a variety of missions including border patrol, transporting personnel or intelligence, surveillance and reconnaissance (ISR). It provides the expected mobility and inherent reliability of a COMMANDO with the flexibility of affordable customization. Manufactured in the United States and backed by our hands-on aftermarket support services, the 4x4 COMMANDO Vanguard is a useful ally in achieving mission success.
