

COMMANDO® SELECT

Exceptional crew protection is built into all COMMANDO Select vehicles. Greater survivability, however, doesn't mean sacrificing vehicle mobility – these vehicles deliver greater mobility than similar armored vehicles on the market. COMMANDO Select vehicles are customizable giving operators the ability to go almost anywhere and perform nearly any mission. Whether serving as a combat-proven infantry fighting vehicle (IFV), performing reconnaissance or as a command and control vehicle the COMMANDO SELECT is ready for action. With a wide range of configurations, it is also a proven ambulance, armored personnel carrier (APC) and a support utility vehicle.
