COMMANDO[®]

FAMILY OF VEHICLES

A LEGACY OF COMMANDO VEHICLES

With decades of experience keeping assets operational and personnel expertly trained, we provide total life-cycle support for the COMMANDO family of vehicles and other product lines. Our mission is to design and deliver vehicles for a long life in austere battlefield and environmental conditions.

TRAINING

Targeted training curriculum and courses are developed based on individual customer needs to get you driving and to keep your vehicle on the road. We offer hands-on maintenance and operator training, computer-based courses and realistic training aids.

FIELD SERVICE SUPPORT

We offer a complete line of field services including repairs, modifications, upgrades, and Service Life Extension Programs (SLEPs). Our Field Service Representatives (FSRs) are actively deployed worldwide and readily available to support your most crucial missions.

LOGISTICS

Spare parts and logistics products are readily available for the Commando FOV. Using highly reliable parts and components in the basic design will keep valuable assets in service and available for a long useful life, maximizing the value of investment.

A COMMANDO FOR EVERY MISSION

ARTILLERY SPOTTING**

**MORTAR/INDIRECT
FIRE**

**COMMAND AND
CONTROL**

ANTI-ARMOR

**ELECTRONIC WARFARE
(EW)**

COMMANDO

SELECT

THE COMMANDO SELECT IS READY FOR ACTION

Exceptional crew protection is built into all COMMANDO Select vehicles. Greater survivability, however, doesn't mean sacrificing vehicle mobility – these vehicles deliver greater mobility than similar armored vehicles on the market. COMMANDO Select vehicles are customizable giving operators the ability to go almost anywhere and perform nearly any mission. Whether serving as a combat-proven infantry fighting vehicle (IFV), performing reconnaissance or as a command and control vehicle the COMMANDO SELECT is ready for action. With a wide range of configurations, it is also a proven ambulance, armored personnel carrier (APC) and a support utility vehicle.

VEHICLE

SPECIFICATIONS

DIMENSIONS

MAX GROSS VEHICLE WEIGHT
18,100 kg (39,915 lb)

WIDTH
2.7 m (8 ft)

MAX LENGTH
6.7 m (22 ft)

CURB WEIGHT
15,600 kg (34,392 lb)

HEIGHT
3 m (10 ft)

GROUND CLEARANCE
66 cm (26 in)

FLEXIBLE CONFIGURATIONS

SPEED (LEVEL HARD SURFACE)
100 kph (62 mph)

VERTICAL WALL
56 cm (22 in)

GRADIENT
60%

RANGE
644 km @ 64 kph
(400 miles @ 40 mph)

FORDING
152 cm (60 in)

SIDE SLOPE
30%

MAX TURNING DIAMETER
19.8 m (65 ft)

POWER TRAIN

ENGINE
Cummins QSL 365

TRANSMISSION
6-speed, Allison 3500SP

ELECTRICAL OPTIONS
260 or 400 Amp Alternator

SEATING

MAX SEATING
3 crew, 7 personnel

COMMANDO

VANGUARD

ADVANCED SOLUTION FOR A VARIETY OF MISSIONS

Leveraging our years of experience in armored vehicle design and manufacturing, the COMMANDO Vanguard is the newest addition to our COMMANDO Family of Vehicles. The COMMANDO Vanguard offers a low-cost, advanced solution for a variety of missions including border patrol, transporting personnel or intelligence, surveillance and reconnaissance (ISR). It provides the expected mobility and inherent reliability of a COMMANDO with the flexibility of affordable customization. Manufactured in the United States and backed by our hands-on aftermarket support services, the 4x4 COMMANDO Vanguard is a useful ally in achieving mission success.
