LAND

HISTORY & EXPERIENCE

Textron Systems has produced 4x4 and 6x6 platforms, tracked vehicles, smaller wheeled vehicles, designed and integrated turrets and refurbished legacy platforms over a 30+ year span for international and domestic customers. The flexibility of our production facility and workforce along with our expertise in the integration of the latest technologies has enabled us to produce a variety of vehicles with increasing complexity.

CORE COMPETENCY

Aluminum and Steel
Welding

Versatile and Highly Skilled
Manufacturing Team

MISSION PACKAGES

- > Total manufacturing space: 158,000 sqft
 - > Space for steel welding: 58,831 sqft
 - > Assembly, I&T activities: 60,368 sqft
- > DCMA (GSI) oversight
- > Enclosed production facilities
- > 30,000 sqft onsite warehousing to support programs

CURRENT CERTIFICATIONS

- > ANSI Z136.1 compliant
- > ISO9000
- > Mil-DTL-53039 and MIL-DTL-64159
- > Mil-STD-3040 and AWS D1.1

CAPABILITIES

- > Tooling design and development
- > Blast/Paint/Liner (BPL) facilities
- > CNC milling
- > Small part machining
- > Flow station design and development
- > End to end vehicle tests tailored to meet program requirements

STATE OF THE ART EQUIPMENT

- > 6 overhead cranes with 10-20 tons capability
- > 15 forklifts rated from 5,000 to 36,000 lbs.
- > 148 weld machines: 118 MIG/30 TIG
