

# THERMITE™ RS1

## UNSURPASSED MOBILITY WITH MAXIMUM STANDOFF

Thermite RS1 is the most capable, durable and reliable firefighting robot on the market. The RS1 is remotely operated with a backpack controller that provides high-definition and infrared video in real-time, allowing the machine to traverse hazardous terrain with maximum control. Manufactured by leaders in robotic innovation, RS1 has the power to push vehicles from its path, the agility to climb stairs and the ability to output a maximum 1,250 gpm at 200 psi. Fabricated using durable construction-grade components, the RS1 can navigate challenging terrains and withstand exposure to extreme elements. Thermite is designed as an advanced tool to help operators combat fires safely and efficiently.
