

TEXTRON Systems

GEOSPATIAL SOLUTIONS

Feature Analyst™ / LIDAR Analyst™ Academic Grant

Textron Systems Geospatial Solutions is introducing a limited-time offer for students and faculty members at accredited academic institutions. Eligible candidates that meet the following criteria are invited to fill out the application below to receive access to Feature Analyst and/or LIDAR Analyst software extensions for Esri® ArcGIS® for the duration of their research project.

- Applicants must be enrolled as a student or a faculty member at an accredited academic institution to be eligible.
- Applicants must credit Textron Systems and provide final report of the project being performed.
- Applicant may be asked to participate in a webinar or provide a testimonial.
- Granted software may not be used commercially or distributed outside of your academic institution.
